

Q&A from Evaluation TA conference call held on May 24, 2007.

Center for Results has two main objectives:

1. Accountability
2. Learning

The Center for Results contract is divided into several smaller contracts. These smaller contracts include:

- Information Technology (IT)
- Strategic Research
- Local Evaluations

We are currently developing a scope of work to develop an IT solution which includes replacing the PEDS system. We anticipate migrating the PEDS data on to the new system.

Q. What is the timeline for the new IT solution?

A. Two years.

Q. What are the responsibilities of the local evaluator?

A. The evaluator will focus on best practices, but not specific technical assistance to counties.

Q. When would you expect to have new contractors on board?

A. Our best estimates are nine months for the IT contractor, strategic research contractor next and finally the local evaluation contractor in 6-9 months.

Web Site Update

Q. Would it be possible to send out an e-mail blast about Web site additions?

A. We will look into sending out something to the counties.

Annual Report Update

We are hoping to have a contractor on board by July 1. We are currently working on PoP annual report forms.

PEDS

Q. Why are the achievement milestones printing in a different order than what is on the screen?

A. We are unable to determine a reason for this behavior.

Q. Do you know when the participant level data will be unscrambled?

A. We are still in negotiations with SRI to get this data.
